

Marketing and Technical Center

Single source solutions. Design, testing and analysis under one roof. Delivered by the industry's brightest – and most experienced – designers, engineers and analysts. From raw concept to proven package design and all steps in between, the Marketing and Technical Center provides a vast array of packaging solutions, resources, testing and analysis.

One facility. Unparalleled resources. Structural design. Packaging innovations. Equipment recommendations. Machinery systems troubleshooting. The industry's largest – and most comprehensive – packaging library. Complete testing, analysis and certification, including paper tests, corrugated box and combined board testing as well as package shipment performance tests. Packaging expertise to make our customer operations as efficient as possible.

It's all available from one source. The Marketing and Technical Center.

Think **inside** the box.™
