

Temple-Inland® is proud to be a Passport Provider with the American Institute of Architects Continuing Education Services (AIA/CES). We offer a number of informative courses available to your staff or group in sessions designed for 1 learning unit of CE credit.

### ON SITE

On-site courses are led by trained Temple-Inland Architect Specialists known for their expertise in building science, sustainable design and construction, LEED and other environmental certification systems.

Courses can be scheduled as “Lunch & Learn” sessions OR at a time that is convenient to your staff.

Courses include:

- *Synthetic Gypsum and How It Contributes to LEED*
- *Gypsum Wallboard in Fire-Resistant Design*
- *Recommended Levels of Gypsum Board Finish*
- *Introduction to Wall Bracing in Wood-Frame Construction*
- *Plant Tour: How Gypsum Board is Manufactured*

Contact Glenn Miller for more information and to schedule on-site continuing education for your office.
